# bodywize immersions

Private Spa and Wellness

利園一期

Bodywize Immersions concept has been carefully curated with three major wellness immersions in mind: Nature, Physical & Intensive.

Our aim is for guests to leave empowered and renewed, with the tools and resilience to continue their wellness journey into their everyday lives.

# A New Spa Language

Talk of chakras and energy as part of the philosophy behind a traditional healing system, they reveal an intriguing new language for explaining how our bodies work. While understanding these theories is not a prerequisite to enjoying their benefits, our spa aims to de-mystify this language.

Please ask us if you wish to know more about the ingredients or modalities used in any of our treatments.

# **Understanding Energy**

The idea of life force, life energy, is shared among many traditional healing systems. In TCM this is known as "qi" (chi), while in Hindu philosophy - including yoga. Ayurveda and martial arts - "prana" is the Sanskrit word used to describe this potent vital energy.

A principle in many healing modalities is that any blockage to the flow of life force within a body can cause imbalance and ill health. Blockages can be physical, mental or emotional, and their removal to restore balance and energy flow is the main goal of many traditional healing practices.

#### Foot Ritual

The soothing, mineral-rich foot ritual is a prelude to each signature treatment. The feet are cleansed, complementing the spiritual cleasing that takes place through purifying ceremony. The relaxing foot ritual is acts of service is humblest, to surrender personal will and foster guest loyalty to receiving full benefits from the treatments that follow.
